

Dear Parents-

One of our favorite things to do at the end of the year is have "theme days" for our classes. These themes are fun/engaging, yet also educational, and the kids LOVE them. We thought it would be a great way to wrap up all of the hard work they have done through digital learning. You will need to have a few things on hand, so we wanted to give you plenty of time. 😊

Monday, 5/11	Watermelon Day 	Pink or Green colors	*A small watermelon with seeds
